

PRINCE2® 7 Foundation & Practitioner with exam

About PRINCE2® 7

PRINCE2® (PROjects IN CONTROLLED ENVIRONMENTs) as a project management method, is one of the most tried and tested approaches to managing projects (25 years running). With its stronghold in 150 countries, it is the most globally recognised project management approach in the world. PRINCE2® is a structured project management method that can be applied regardless of project scale, type, organisation, geography or culture. It is an integrated framework of processes and themes which address the planning, delegation, monitoring and control of the aspects of project performance involved in any project such as: costs, timescales, quality ect. PRINCE2® 7 is the recently updated edition, modernising certain elements such as Change Management, Soft Skills, the project office, data and sustainability. This also opens up the approach to make 'PRINCE2® for everyone' with easily applied scenarios and simple to understand language.

Learning objectives—what is covered?

- Principles: 7 Principles are covered such as continued business justification; learn from experience ect. are covered.
- Practices: 7 (previously themes) such as business case, organisation are covered.
- Processes: The 7 processes that take you through the project from start to finish are identified such as 'SU' Starting Up a project, 'IP' Initiating a project ect.
